

## Community Presentations

This service is a general education and information session aimed at providing relevant information for clients and carers. These presentations increase awareness of what equipment and assistive technology is available, and how they are used.

**Please mark your preference**

**Maximum presentation time is 1.5 hours**

- Great Gadgets:**  
 An introduction to products to help with everyday tasks, including household, dressing, mealtime, transport, mobility. Includes assistive technology that would be useful for a person with arthritis and vision impairment.
  
- Falls Prevention:**  
 Design solutions and assistive technology to make your home and environment safer and more easily accessible.
  
- Mobility:**  
 Selection and safe use of walking sticks, wheeled walkers and manual wheelchairs.
  
- Transfers:**  
 An overview of bed, wheelchair and household chair transfer products and their safe application.
  
- Children's Assistive Technology:**  
 An overview of assistive devices to assist children with eating, drinking, cutting, writing, reading, mobility, bathing and toileting items.
  
- Computer Access and Environmental Control Units:**  
 An overview of the variety of different ways to access a computer as well as other devices. (also includes an overview of switch access controls for a variety of applications)
  
- Communication:**  
 An introduction to the variety of different speech generating, alternative and augmentative communication aids .
